The define for reaction had really gone so far as to give the market a sold-out appearance and under such a condition the force of fluctuations was from the weakest at the sarry to the strongest at the finish. There was only one direction to the drift of the scale and bullishness appeared to gain new strength on each transaction. The range was wide enough to remove any question of doubt as to the mind of the trade. A clange was also to be noted in the fact that New York was alsed in the procession and all signs of backwardness were early cost awas.

Soon after an advancing wave set to and continued to enhance values until the final hour of the session. A gain of 15 to 18 points was scored by that time and made top prices of the day soon after and formed a level from which there was slight departure until a small break occurred on the final call.
